

# HUGO-X1 Battery Backup System

For Use with Both Residential and Commercial Applications

**Rinnai®**

## FOR GAS TANKLESS WATER HEATERS AND HOME HEATING APPLIANCES

**HUGO-X1**

### The Safe and Reliable Backup Solution for Tankless Water Heaters and Gas Appliances

In 2017, 36.2 million people were affected by reported power outages – more than twice the 17.9 million that were affected in 2016. \* Which is why it is even more important than ever to have a battery backup system protecting your home or business.

### Patented and Designed specifically for use with Gas Tankless Water Heaters

- Tested and approved for use with all Rinnai Tankless Water Heaters and home heating appliance
- Compatible with computers, space heaters, solar panel systems and other no-flow appliances
- Small, portable design allows for use as a power station when camping or off grid
- Pure Sine Wave output makes it ideal as a battery backup and surge protector

**AVAILABLE: SEPTEMBER 1, 2019**

**Rinnai Part Number: R-UPS350A**

**Suggested List Price: \$750 USD / \$990 CAD**

\* Based on continuous runtime; practical usage may vary.  
\*2017 USA Blackout Annual Report, Eaton Corp.

### Key Features:

- **Weatherproof Enclosure Design** with IP54 Rating allows for either indoor and outdoor installations internal temperature sensor offers protection during freezing temperatures
- **Flow Sensor Switch** to prolong battery life (For Approximate Run Times by Rinnai model, see Tech Bulletin TB-130)
- **Multi-Appliance Connection** allows user to connect multiple appliances with the use of an extension cord
- **Auto activate** within 8ms if power outage / disruption occurs
- **Auto Reset** when main power becomes available
- **Auto Switchover** system provides continuous power by use of main power and inverter mode
